Product Zinc Alloy Die casting parts, Aluminum Alloy Die casting parts, OEM Die casting parts, etc Material Aluminum alloy ADC12, A380, etc. Dimension According to drawings Finish Heat treatment, Polished, Anodizin, Powdering, Zinc-plating, Electroplating, Spraying, etc. Package Carton package Processing CNC machine, Grinding machine, CNC milling machine, CNC cutting machine, etc etc. Horizontal milling machine, CNC milling machine, CNC cutting machine, etc etc. Measuring Horizontal milling machine, Chamfering machine, CNC cutting machine, etc etc. MOO According to customer requirements Payment Terms JTT 50% deposit, 50% balance before shipment. CNC machining, CNC turning, CNC drilling, CNC milling, Grinding machine, Business Scope Milling machine, Mould design and machining, Casting, Sheet metal machining, etc. Application Automating, etc. Automating machine, Mould design and machining, Casting, Sheet metal machining, etc. Port Shenzhen, China Lead time J Gwrking days after deposit received. Main Equipment Die casting machine 1.Product Name: Professional customized Die casting parts 2.Process: Die casting 3.Material: Aluminum alloy ADC12, A380, etc. 4.Finish: Polished, Powdering, Anodizing, Nickel-plating, Chromate, etc. 5.Tolerance: Minimium to ±0.0.1mm 6.QC: 1001 inspection 7.Detail: According to drawings or samples, precision machining. 8.Sample delivery time: 25 to 30 working days 9.Applicable Scope: CNC machining parts, Industrial and mineral parts, Mechanical parts, Industrial parts, Automotive spare parts, etc. 10.Customer: United States, Canada, Australla, European Union, etc. 11.Quality system and certification: ISO 9001 Our advantages 5.Short lead time 6.Provide timely sample 7.Rich experience in export trade Our services Die casting parts and samples: On time delivery Package of Die casting parts: Carton package			
Auminum alloy ADC12, A380,etc. Dimension According to drawings			
Dimension According to drawings Heat treatment, Polished, Anodizin, Powdering, Zinc-plating, Electroplating, Spraying, etc. Package Carton package Processing Equipment CNC current and illing machine, CNC milling machine, Drill machine, Horizontal milling machine, Chamfering machine, CNC cutting machine,etc. Hardness tester, Precision plug gauge, Gauges, Digital diameter micrometer, External diameter micrometer, Digital caliper, Internal diameter micrometer, Vernier caliper, Dial indicator, Height gauge, Coordinate measuring machine, etc. MOQ According to customer requirements Accuracy / Tolerance ± 0.01mm Tolerance ± 0.01mm Rusiness Scope Milling machine, Mould design and machining, Carton appliances, CNC machining, CNC turring, CNC diffling, CNC milling, Grinding machine, Milling machine, Mould design and machining, Casting, Sheet metal machining, etc. Application Automation equipment, Medical equipment, Industrial machinery, Electrical appliances, CNC machining parts, Automotive spare parts, etc Port Shenzhen, China Lead time 30 working days after deposit received. Main Equipment Die casting machine 1. Product Name : Professional customized Die casting parts 2. Process : Die casting 3. Material : Aluminum alloy ADC12, A380, etc. 4. Finish : Polished, Powdering, Anodizing, Nickel-plating, Chromate, etc. 5. Tolerance : Minimium to ±0.01mm 6. QC : 100[] inspection 7. Detail : According to drawings or samples, precision machining. 8. Sample delivery time : 25 to 30 working days 9. Applicable Scope : CNC machining parts, Industrial and mineral parts, Mechanical parts, Industrial parts, Automotive spare parts, etc. 10. Customer : United States, Canada, Australia, European Union, etc. 11. Quality system and certification : ISO 9001 Our advantages 1.10 years of experience with ISO certification 2. Variety of materials 3. High utilization rate of materials 4. High quality and competitive price 5. Short I lead time 6. Provide timely sample 7. Rich experience in export trade Our	Product	1	
Heat treatment, Polished, Anodizin, Powdering, Zinc-plating, Electroplating, Spraying, etc. Package Carton package Processing Equipment CNC machine, Grinding machine, CNC milling machine, Drill machine,etcetc. Hardness tester, Precision plug gauge, Gauges, Digital diameter micrometer, External diameter micrometer, Digital caliper, Internal diameter micrometer, Vernier caliper, Dial indicator, Height gauge, Coordinate measuring machine, etc. MOQ According to customer requirements According to customer requirements According to Coordinate measuring machine, etc. MOQ Accordinate measuring machine, etc. MOQ Accordinate measuring machine, etc. MOR Accordinate measuring machine, etc. MOR According to Coordinate measuring machine, etc. MIlling machine, Mould design and machining, Crinding machine, Milling machine, Mould design and machining, Casting, Sheet metal machining, etc. Application Automation equipment, Medical equipment, Industrial machinery, Electrical appliances, CNC machining parts, Automotive spare parts, etc Port Shenzhen, China Lead time 30 working days after deposit received. Die casting machine 1. Product Name : Professional customized Die casting parts 2. Process : Die casting 3. Material : Aluminum alloy ADC12, A380, etc. 3. Tolerance : Minimium to ±0.01mm 6. QC : 100[inspection 7. Detail : According to drawings or samples, precision machining. 8. Sample delivery time : 25 to 30 working days 9. Applicable Scope : CNC machining parts, Industrial and mineral parts, Mechanical parts, Industrial parts, Automotive spare parts, etc. 10. Customer : United States, Canada, Australia, European Union,etc. 11. Quality system and certification : 150 9001	Material	Aluminum alloy ADC12, A380,etc.	
Package Carton package Processing CNC machine, Grinding machine, CNC milling machine, Drill machine, Equipmentetc. Hardness tester, Precision plug gauge, Gauges, Digital diameter micrometer, External diameter micrometer, Digital caliper, Internal diameter micrometer, External diameter micrometer, Digital caliper, Internal diameter micrometer, Vernier caliper, Dial indicator, Height gauge, Coordinate measuring machine, etc. MOQ According to customer requirements Accuracy / Tolerance Payment Terms T/T 50% deposit, 50% balance before shipment. CNC machining, CNC turning, CNC drilling, CNC milling, Grinding machine, Milling machien, Mould design and machining, Casting, Sheet metal machining, etc. Application Automation equipment, Medical equipment, Industrial machinery, Electrical appliances, CNC machining parts, Automotive spare parts, etc Port Shenzhen, China Lead time 30 working days after deposit received. Die casting machine 1.Product Name : Professional customized Die casting parts 2.Process : Die casting 3.Material : Aluminum alloy ADC12, A380, etc. 4.Finish : Polished, Powdering, Anodizing, Nickel-plating, Chromate, etc. 5.Tolerance : Minimium to ±0.01mm 6.QC : 100] inspection 7.Detail : According to drawings or samples, precision machining. 8.Sample delivery time : 25 to 30 working days 9.Applicable Scope : CNC machining parts, Industrial and mineral parts, Mechanical parts, Industrial parts, Automotive spare parts, etc. 11.Quality system and certification : ISO 9001 Our advantages 1.10 years of experience with ISO certification 2.Variety of materials 3.High utilization rate of materials 4.High quality and competitive price 5.Short lead time 6.Provide timely sample 7.Rich experience in export trade Our services Die casting parts and samples : On time delivery	Dimension	According to drawings	
Processing Equipmentetc. Hardness tester, Precision plug gauge, Gauges, Digital diameter micrometer, External diameter micrometer, External diameter micrometer, Digital caliper, Internal diameter micrometer, External diameter micrometer, Digital caliper, Internal diameter micrometer, External diameter micrometer, Digital caliper, Internal diameter micrometer, Vernier caliper, Dial indicator, Height gauge, Coordinate measuring machine, etc. MOQ According to customer requirements According to customer requirements Equipment Terms T/T 50% deposit, 50% balance before shipment. CNC machining, CNC turning, CNC drilling, CNC milling, Grinding machine, Milling machien, Mould design and machining, Casting, Sheet metal machining, etc. Application Automation equipment, Medical equipment, Industrial machinery, Electrical appliances, CNC machining parts, Automotive spare parts, etc Port Shenzhen, China Lead time 30 working days after deposit received. Main Equipment Die casting machine 1.Product Name : Professional customized Die casting parts 2.Process : Die casting 3. Material : Aluminum alloy ADC12, A380,etc. 4.Finish : Polished, Powdering, Anodizing, Nickel-plating, Chromate, etc. 5. Tolerance : Minimium to ±0.0mm 6.QC : 100[] inspection 7. Detail : According to drawings or samples, precision machining. 8. Sample delivery time : 25 to 30 working days 9. Applicable Scope : CNC machining parts, Industrial and mineral parts, Mechanical parts, Industrial parts, Automotive spare parts, etc. 10. Customer : United States, Canada, Australia, European Union,etc. 11. Quality system and certification : ISO 9001 Our advantages 1. High quality and competitive price 5. Short lead time 6. Provide timely sample 7. Rich experience in export trade Our services Die casting parts and samples : On time delivery	Finish		
Horizontal milling machine, Chamfering machine, CNC cutting machine, Equipment Hardness tester, Precision plug gauge, Gauges, Digital diameter micrometer, External diameter micrometer, Digital caliper, Internal diameter micrometer, Vernier caliper, Dial indicator, Height gauge, Coordinate measuring machine, etc. MOQ According to customer requirements Accuracy / Tolerance	Package	Carton package	
Measuring Equipment diameter micrometer, Lyernier caliper, Digital caliper, Internal diameter micrometer, Vernier caliper, Digital caliper, Internal diameter micrometer, Vernier caliper, Digital caliper, Internal calip	_	Horizontal milling machine, Chamfering machine, CNC cutting machine,etc.	
Accuracy / Tolerance Payment Terms T/T 50% deposit, 50% balance before shipment. CNC machining, CNC turning, CNC drilling, CNC milling, Grinding machine, Milling machien, Mould design and machining, Casting, Sheet metal machining, etc. Application Automation equipment, Medical equipment, Industrial machinery, Electrical appliances, CNC machining parts, Automotive spare parts, etc Port Shenzhen, China Lead time 30 working days after deposit received. Main Equipment Die casting machine 1.Product Name : Professional customized Die casting parts 2.Process : Die casting 3.Material : Aluminum alloy ADC12, A380,etc. 4.Finish : Polished, Powdering, Anodizing, Nickel-plating, Chromate, etc. 5.Tolerance : Minimium to ±0.01mm 6.QC : 100[inspection 7.Detail : According to drawings or samples, precision machining. 8.Sample delivery time : 25 to 30 working days 9.Applicable Scope : CNC machining parts, Industrial and mineral parts, Mechanical parts, Industrial parts, Automotive spare parts, etc. 10.Customer : United States, Canada, Australia, European Union,etc. 11.Quality system and certification : ISO 9001 Our advantages 1.10 years of experience with ISO certification 2.Variety of materials 3.High utilization rate of materials 4.High quality and competitive price 5.Short lead time 6.Provide timely sample 7.Rich experience in export trade Our services Die casting parts and samples : On time delivery	Equipment	micrometer, External diameter micrometer, Digital caliper, Internal diameter micrometer, Vernier caliper, Dial indicator, Height gauge, Coordinate measuring machine, etc.	
Tolerance Payment Terms T/T 50% deposit, 50% balance before shipment. CNC machining, CNC turning, CNC drilling, CNC milling, Grinding machine, Milling machien, Mould design and machining, Casting, Sheet metal machining, etc. Application Application Port Shenzhen, China Lead time 30 working days after deposit received. Main Equipment Die casting machine 1. Product Name: Professional customized Die casting parts 2. Process: Die casting 3. Material: Aluminum alloy ADC12, A380,etc. 4. Finish: Polished, Powdering, Anodizing, Nickel-plating, Chromate, etc. 5. Tolerance: Minimium to ±0.01mm 6.QC: 100[] inspection 7. Detail: According to drawings or samples, precision machining. 8.
