Dear Jack,

I got a feedback of our engineer that metal [arts 12000008 are almost ok but the thread's surface could and should be smoother. The goods really have a good quality but please try to improve the material's surface inside the thread.

Our engineer suggested to change the mixture of your drilling fluid.
I hope this could help, so that we can receive "not only" good parts but perfect ones in the future.

Thanks.

Hi Ivy,

Enjoy your trip to San Francisco. We are unfortunately, about 3000 miles from there, so we will not be able to meet up.

Thank you so much for being a great vendor.

Enjoy your travels!
