

### PROCESS

Manufacturing Process

Process	Description	Equipment	Material	Quality Control
1	Raw material inspection	Scale, Spectrometer	Steel, Aluminum	Visual inspection, X-ray
2	Drilling	Drill Press	Steel, Aluminum	Dimensional check
3	Machining	Lathe, Mill	Steel, Aluminum	Surface finish measurement
4	Assembly	Conveyor belt, Assembly line	Steel, Aluminum, Components	Final inspection
5	Quality Assurance	Inspection station	Steel, Aluminum	Statistical process control
6	Final packaging	Wrapping machine	Steel, Aluminum	Final inspection
