

PRODUCTDESCRIPTION:

NAME:	Custom 3D Print Machine Parts/Components in China
PROCESSING:	CNC machining.
MATERIAL:	Aluminum, stainless steel, brass, bronze, zinc, Alloy, plastic etc.
DIMENSIONS	According to customer's drawing.
FINISH:	Anodize, Sandblasting, Heat treatment, polishing, powder coating, electroplating, spraying, painting, silkscreen etc.
TOLERANCE:	can reach to +/-0.002mm.
QUALITY CONTROL:	100% inspected.
SPECIFICATION:	OEM service, strictly per drawing and samples.
DELIVERY TIME:	10-25days---Best selling China manufacture high precision customized CNC lathe machining parts.
APPLICATION:	aluminum die casting parts, mining accessories, machinery accessories, auto parts etc.
Main CUSTOMER:	USA, Canada, Australia, EU, etc.
CERTIFICATION	ISO9001,SGS.
PAYMENT:	T/T or Paypal or others---Best selling China manufacture high precision customized CNC lathe machining parts.

PRODUCT DETAILS

XY-GLOBAL
High Quality.Competitive Price.High Service

WELCOME TO OUR COMPANY

High precision processing technology

High quality surface treatment

OUR ADVANTAGES

XY-GLOBAL
High Quality Competitive Price High Service

WELCOME TO OUR COMPANY

1

Profession

A professional OEM&ODM Die casting & CNC machining manufacturer.

2

Team

A strong and professional engineers team with more than 10 years relative experience.

3

Experience

The professional sales team and QC team have 5-10 years experience.

4

Quality assurance

Strict quality control process and 100% inspection.
